

S2 COMPARATOR STAND (WITH FINE ADJUST)

The S-2 precision comparator stand was designed for manufacturing areas requiring high accuracy such as grinding and inspection departments. It is recommended for use with all Dorsey high amplification dial and digital indicators, but will accommodate other gaging devices having a standard .375" or 8mm diameter mounting stem.

FEATURES:

- Unique fine adjustment head - Dorsey's frictionless reed spring design prevents backlash and drifting. Insures rapid, precise zero positioning of any dial indicator. Permits Dorsey high amplification dial indicators or other gaging instruments of equal sensitivity to perform to their full capability of measuring to millionths of an inch repetitively and accurately.
- Ground and chrome plated columns provide maximum wear and corrosion resistance
- Precision machined and ground cast base insures perpendicularity of column to anvil
- Anvils for the S2 and S2N are made from hardened and lapped high grade tool steel.

PART #	DESCRIPTION
47145	S2 STAND WITHOUT ANVIL
S2-HEAD	FINE ADJUSTMENT HEAD ONLY

Shown with optional
20 millionths indicator
#414-002

Part# 47141
Straight serrated surface anvil 2" dia.

Part# 47113
Flat surface anvil 2" dia.

Part# 47139
Flat diamond serrated surface anvil 2"x3"

Part# 47138
Flat surface anvil 2"x3"

S2N COMPARATOR STAND (WITH STATIC HEAD)

The S2N production and shop area comparator stand is specifically designed without fine adjustment for use with digital indicators, long range indicators and electronic probes with remote readouts.

The S2N stand maximum gaging height is 4.0" inches and the throat clearance is 2.4"

Shown with optional extended range digital indicator
