

DBL SERIES - INTERNAL DIAL BORE GAGES

DBL Series precision bore gages are designed to be lightweight, versatile, and are ideal for toolroom applications. They feature an independent dynamic centralizer, with two fixed carbide balls, and are easy to disassemble and clean. Five models cover a measurement range from .25" to 6".

DBL-248
.248 - .501"

DBL-998
.998 - 1.501"

DBL-499
.499 - 1.001"

DBL-1499
1.499 - 3.00"

DBL-300
3.00 - 6.00"

All DBL series gages include carbide centralizing contacts, a .0001" graduation dial indicator and fitted wooden storage box.
