

MDG SERIES - MODULAR DEPTH GAGES

The MDG series of modular indicating depth gages are available as fixed or adjustable models. This versatile design allows the mixing and matching of components to build a gage which can suit any application. Designed to replace many dedicated flush pin gages, these gages feature a unique self mastering mechanism further eliminating the requirement for a setmaster. Offset contact can be used to check groove depths or locations.

FEATURES

- Modular design offers maximum versatility
- 2 frame styles suit any application
- Light weight or heavy duty tube
- Self mastering adjustable and fixed models
- A single gage can replace many flush pin gages
- Accommodates ANSI AGD # 1, #2 dial or digital indicators
- Precision ground stress relieved and hardened frames and pins

Part #5616 offset rest foot

Proudly made in the USA
