

LBBS SERIES - PRECISION SLIDE MECHANISM

www.dorseymetrology.com

LBBS series gages use a precision bushing slide mechanism for applications where retraction is required beyond the range of the indicator. The movement is light, sensitive, and accurate while free of any side play. Ideal for applications to bypass obstructions, inspect grooves, contours, recesses, or retraction over the major diameter of a reverse taper. Models are available in fixed or adjustable frame designs. **Please supply Dorsey with part print for quoting.**

Available in Carbon Fiber
