DBL self centralizing bore gages are ideal for toolroom and production applications. Easy to use, easy to disassemble, and easy to clean. Only 4 moving parts are used in this precision economical gage. Optional shock proof dial indicator with .001", .0005", .0001", or .00005" (.001mm, .002mm, .01mm) resolution available in single or multi revolution models Accepts low profile indicator housing or dial unit housing Stainless steel plunger is encased in lightweight extension tubing. Custom lengths available Ergonomic and massive thermal isolation handle Dynamic centralizer ensures accurate and repeatable centralization Integrated range extension/contact. Robust external centralizer reed spring Replaceable contacts available in steel, carbide, or diamond Proven cam transfer is accurate and linear over its entire range 2 Point Recommended for smaller diameters (Standard Feature) Standard carbide centralizing

ball contacts
